Pipe Replacement

Sometimes a home cannot be repaired using a pipelining solution. In instances like these a pipe replacement is sometimes the only solution available. A typical pipe replacement requires us to either re-route the plumbing around the house if possible or we will need to trench the foundation to complete the necessary re-work.

Pipe Inspection

In order to best understand how we can help you repair you plumbing issues, it is necessary to perform an inspection of your plumbing system. Our team of service experts provide inspection services through a thorough video examination of the plumbing system in your home. When our inspection is complete you will have evidence of exactly what and where the issues are.

See What Our Residential Clients Say About Us

The representative that was sent to my home, I believe his name was Tony and also a gentleman name David, were so helpful during my plumbing crisis. They were very knowledgeable about the work and repairs that were required to make my house a home again.

Sunkissed Chocolate

I worked with APT regarding a repipe matter. Due to my work schedule, it was difficult for me to meet with them so they actually came to my office and explained what the job would entail. When they came to my home, they were very detailed, prompt, professional and made the entire process as stress free as possible. I am thankful for their services and highly recommend them should you need a repiping service.

Ayana Smith

I would like to give a huge shout out to Tony D. and his team at APT, Advanced Plumbing Technology! He and his team of professionals, came to my home and without judgment, assessed The water damage to my home due to faulty cast-iron pipes. His team did not miss a beat by checking every square footage of Pipes, on the roof, within the walls, bathroom room, kitchen, and laundry room. During the process Tony sat down with me at my kitchen table and explained how it all would work. It was a bit overwhelming but he put me at ease. Highly recommend this company for your future pipe needs and plumbing repairs, assessment of damage. 😊
