

# A Single Biopsy From This Cow Can Make Millions of Handbags.

All while she remains grazing happily, right where we left her.

## Real Leather. Low Impact.

MISSION

Nothing beats the feel of real leather. So instead of creating an "alternative", we work with nature to create real leather that's simply more humane and more sustainable.

We cultivate authentic materials without compromise, by harnessing science and nature responsibly.

OUR PROCESS

## Harnessing Nature Responsibly

Cells know just what to do once you give them the right environment. With this knowledge, we've developed a process that allows us to work in harmony with nature, always following her lead.

[OUR PROCESS](#)

# One Cell. Infinite Possibilities.

We're partnering with the most beloved brands to create a world of low-impact lab-grown leather products. If you're interested in collaborating, please reach out.
