BioSILVER 20 PPM Optimized Bio-Active Ionic Silver in 16 fl. oz Economy Size Dark Glass Bottle – by Thrival Labs

- **OPTIMIZED BALANCED 80/20 BIOACTIVE FORMULA:** While other manufacturers argue which form of silver is better – ionic or colloidal particle – BioSILVER is designed to offer both. Our formulation offers 80 percent ionic as the active agent that directly supports your immune system, and 20 percent colloidal particles to provide a longer slow ionic release mechanism to offer longer lasting immunity support.
- **OPTIMIZED MANUFACTURING FOR NANO-SIZED PARTICLES:** Research has determined that silver particles are most effective below 10NM. While silver ions are naturally sub-nano-sized, our manufacturing process has been optimized to also keep our 20 percent particle mix below 10NM. Our smaller particle size offers maximum absorption and maximum surface area to optimize support for your immune system. As it only takes a single ion to do its job, it is much better to have a huge number of little ions.
- **OPTIMAL SAFETY:** BioSILVER has 2 ingredients – 99.999% pure silver & pharmaceutical-grade purified water. We use amber-colored, glass-bottles which are crucial to ensure the stability & quality of colloidal silver. We have optimized our formula at 20PPM to easily stay within the EPA established daily Oral Silver Reference Dose (RfD) of 350 micrograms (mcg). Our 1 tbs serving size offers 115 mcg safely allowing up to 3 servings daily. BioSILVER is vegan, GMO-free, and cruelty-free.
- **SILVER HAS BEEN PROVEN SAFE AND EFFECTIVE OVER 2000 YEARS OF USE:** Silver has been used safely and effectively in medicine since Hippocrates first wrote about its properties in 400 BC. Since ancient history, silver has been extensively used as a therapeutic agent. As a naturally occurring element, the ionized form of silver (Ag+1) is well-known for its therapeutic properties.
- **100 PERCENT SATISFACTION GUARANTEE:** At Thrival Labs, we are customer advocates that go the extra mile to make sure that we offer the best products and the best customer experience. If you are unsatisfied for any reason, we will refund your money no questions asked. We are confident in our products and go the extra mile to ensure consistent product quality so our customers can continually buy with confidence.
