**Every Dog is Different**

Every dog is different, including my 7 year old dog, Jack. The dog food was small enough and soft enough for him to enjoy but just hard enough for him to still enjoy the crunch! He loves his food and I'm always on the look for more plant based protein instead of animal byproducts. Karma has 60+% plant and animal protein.

I received Karma - PLANT FIRST RECIPE WITH Chicken and fed this to my eleven year old dog and she loved it. I love that it is plant based and a healthier option. I would recommend to other pet owners.

**Didn't work as anticipated**

I attempted to feed my pups this food and it went terrible. I followed vet recommendations for switching food, followed a strict schedule and their bowel movements were terrible, they had upset tummies and refused to eat any more. Unfortunately while I appreciated the label and ingredients, this just didn't work out for my American bulldogs

### Great

My dog loves it! I put this food in her dish with some of her other food and she had very thoroughly picked through and eaten all of the Karma food. I love the smaller pieces, my dog is small so I think it is easier for her to eat.
