PREMIUM MICROPHONE BOOM ARM

## PREMIUM FEEL. SOPHISTICATED LOOKS.

Compass is a premium microphone boom arm with internal springs and built-in cable management, ideal for broadcast applications like game streaming, podcasting, voice-over and more. With smooth, quiet operation and sophisticated on-camera looks, Compass is the perfect microphone boom arm for mics weighing up to 2.4 pounds, including Yeti and Blackout Spark SL.

## Studio-Grade Design

Tired of squeaky, flimsy scissor booms? We are too! Compass features a broadcast studio-grade design with enclosed aluminum construction, internal springs, and hidden-channel cable management. All friction hinges are hand-tightening—no need for any tools—and a full 360-degree rotation means you're covered for any application.

Effortless and quiet, Compass stays in place after being adjusted, and the robust C-clamp creates a solid connection with your desktop. Pair Compass with Yeti and the Radius III shockmount for a professional broadcast setup.

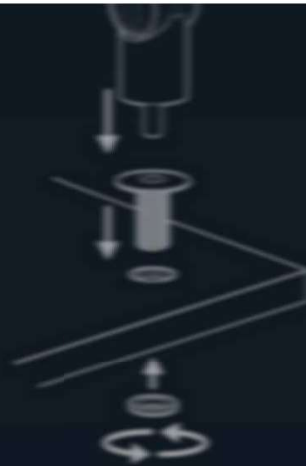

## Game Streaming, Podcasting and Broadcasting

Compass is your secret weapon for your Twitch game streams. Being nimble and sleek, Compass lets you put your mic where you want it, when you want it. Whether you adjust the boom to disappear or camera or feature it front and center with the mic, Compass fits perfectly into your game streaming or podcasting setup and will impress your audience.

## Fixed Mounting with the Desk-Insert Bushing

If you would like to permanently mount Compass to your desktop, please purchase the Compass Desk-Insert Bushing from the Blue Web Store and reference the Compass Quick-Start Guide for instructions.

Compass | Premium Broadcast Boom Arm

How to Set Up and Adjust Blue Compass Boom Arm Tension for Different Microphone Sizes

## Description

Compass is a premium broadcast boom arm with internal springs and built-in cable management, ideal for broadcast applications like game streaming, podcasting, voice-over and more. With smooth, quiet operation and sophisticated on-camera looks, Compass is the perfect microphone boom arm for mics weighing up to 2.4 pounds, including Blue's Yeti and Blackout Spark SL.

Compass features a broadcast studio-grade design with enclosed aluminum construction, internal springs, and hidden-channel cable management. All friction hinges are hand-tightening—no need for any tools—and a full 360-degree rotation means you're covered for any application. Effortless and quiet, Compass stays in place after being adjusted, and the robust C-clamp creates a solid connection with your desktop. Pair Compass with Yeti and the Radius III shockmount for a professional broadcast setup.
