

MUST SEE OTT

Get your infrastructure ready!

Age-old processes such as marketing, post-production, and sales haven't gone away in the digital age; in fact they've become more complex. An increasingly aggressive regulatory environment, plus ever-evolving technology standards, and of course budgetary pressures... it's easy to see why finding the right partner for your content delivery needs is more critical than ever.

NETWORK IN A BOX™ is the right choice.

- Brand & Content Strategy
- Technical Network Operations
- Channel & Content Distribution
- Ad-Sales & Monetization
- OTT Implementation [SVOD, AVOD, PVID, Streaming]

NETWORK IN A BOX™ is a content delivery solutions company. We also operate as an Incubator and Accelerator for early-stage content platforms.

NETWORK IN A BOX™ is a West Coast-based firm (with teams on the East Coast and in Canada) whose veteran staff has executed operations, production, and other content management services for a combined total of over six decades. With this experience comes a deep problem-solving ability, no matter what the project scope.

NETWORK IN A BOX™ solutions comprise a suite of creative processes, software tools, and custom technologies that allow content owners to control churn by creating viewer experiences that retain and increase viewership.
