

Strawberry Donuts 30ml 100mg Kratom Extract Shot

\$20.00

Sold Out

Our delicious strawberry flavored kratom extract shot contains 100mg of total kratom extract. We use a 45% Mitragynine extract which is sourced directly from the farmers who grow it and extracted using our propriety method. Always third-party lab tested. Check out our labs for full alkaloid profile.

Disclaimer

Buyer/reseller/user understands and acknowledges the following:

Mitragyna speciosa is an unapproved dietary ingredient. The manufacturers and re-sellers of these products cannot advise on their use as the FDA has not approved kratom as a dietary ingredient. No daily value or dosage has been established for kratom products. This product contains botanical Kratom. Only for use as a botanical specimen. These products are not intended to bear any claims. To the extent any claims are taken by implication or otherwise believed to be associated with these products, such claims have not been evaluated by the U.S. Food and Drug Administration (FDA) and these products are not intended to diagnose, treat, cure, or prevent any disease or health condition. Ingesting Mitragyna speciosa can be dangerous. Consult your physician about potential interactions with medication or dietary supplements (prescribed or otherwise), or if you have any medical conditions, and consult your physician about other possible complications and precautionary measures before considering use of these products. Inform your physician of the alkaloid content labeled on the package. Ingesting Mitragyna Speciosa can be dangerous and can cause dependency, addiction, overdose, potentially serious health consequences, side effects, and/or death. Please do your own research into kratom before deciding to use any of our products or this plant, as there is always some degree of risk when you consume any botanical substance.
