

About Us

[Home](#) [About](#) [About Us](#)

Re-engineering the vehicles and equipment that take you places. HIMALAYA is a bespoke transportation design company.

At the core of HIMALAYA there is a fundamental truth of exploration and adventure rooted deep within our DNA. We live and breathe the elements of great adventures, drawn to the experiences had during the journey rather than the final destination.

Our goal, to capture the unique heritage of the Land Rover Defender, the storied and proven tradition and the innate yearning for adventure that it encourages and is built into every vehicle.

While being ultimately respectful of the history, we seamlessly integrate the modern touches that enhance drivability, reliability and performance. Absolutely nothing is overlooked and nothing is compromised in a vehicle that retains its classic styling but, can go anywhere, reliably and in comfort.

At HIMALAYA we make the ultimate Defender for the modern era. We create DRIVABLE AUTOMOTIVE ARTWORK for the most discerning and appreciative guardians of this iconic vehicle.

HIMALAYA

Be among the first to receive spec sheets on the next four vehicles to roll off the floor.
