## **MitoGreens™**

### **A Next- Generation Superfood Powder**

**MitoGreens™** is a superfood powder, blending over 30 of the most well-known and researched fruits, vegetables, herbs and spices in the world. These are concentrated powders and extracts derived from plant-based sources, and they are phytonutrient dense. Recent research has revealed that a range of fruit, vegetable and herb powders and extracts may provide support for a range of health, wellness and healthy aging benefits.

## **Greens Base Product**

### **Formulated based on MitoGreens®**

The Greens Base product is a complete superfood formula designed based on NNB's MitoGreens®. It can be used as a finished superfood product with just flavoring, and the taste can be customized according to needs. The Green Base product has been carefully designed by the NNB R&D team and formulation team. It is Easy to process into various types of products. The base material can be used directly or compounded to become meal replacement products, milkshake products, slimming products, protein, collagen, etc.

- Added Spirulina to aid in fat burning, detoxification and antioxidation
- Added corn fiber which can enhance satiety

## MitoReds™

### Polyphenol SuperReds Blends

MitoReds is a polyphenol superfood blend that helps the body maintain energy levels and stability while promoting heart, circulatory and brain health. It also has the ability to fortify the immune system, protect the body from oxidative stress, and promote the growth of beneficial bacteria in the gut. The blend contains 30 different berries, fruit, and vegetables rich in antioxidants, phytonutrients, and fibers. The Unique blending with the 'longevity vitamin', MitoPrime® (L-Ergothioneine) makes it a superfood with effective antioxidant and immunity .

- Helps Boost Energy Levels
- Fortify the immune system
- Promotes Heart & Circulatory Health
