- It is made of high-quality zinc alloy material, with good workmanship and smooth surface polishing. It has the characteristics of water resistance, rust prevention, and corrosion resistance.
- The magnetic lock cylinder is used, and only the special key provided by us can open it. It has strong anti prying and anti cutting and are difficult to be damaged by violence, which greatly improves its safety factor.
- The lock body has a built-in spring. When the key is inserted and rotated 90 degrees, the lock beam automatically pops out, and then the key can be pulled out. No key is required to close the lock.
- The metal lock measures 2.16 x 1.37 x 0.78 inches and is resistant to high and low temperatures. Any high or cold weather has little impact on its performance, so it can be used indoors or outdoors.
- This metal lock is widely used in power meter boxes, gas boxes, equipment boxes, tool rooms, trucks,
