The gaming industry's new must-have marketing platform.

Convertr uses proprietary encryption technology that allows two parties to securely, and independently, upload, match and drive insights from customer databases.

Instant collaboration

Securely upload your data

Upload data

[Request a demo](#)

Two parties securely upload their data to the Convertr platform, while remaining totally independent of one another. The other party has no visibility over your database.

Unlock insights

Explore insights derived from matched customers to identify targeting opportunities.

International Information Security Standards

Secured by    **ISO/IEC 27001 CERTIFIED**

Security and Compliance is central to everything we do.

Convertr is developed with **IXUP** technology which continues to comply with international information security standards, such as ISO 27001 and SOC 2, Type II.

To gain these certifications, IXUP was required to implement a robust security risk management program to help minimize risk of security breaches and continuously improve its overall security posture and business processes. Extensive measures are also in place to prevent unauthorized access to private information, internal systems and networks.
