#### DESCRIPTION

- A19 LED provides the look of incandescent light bulbs, ideal for use in ceiling fixtures, wall fixtures and pendant lights.
- Non-dimmable LED light bulb, E26 medium base, damp rated for use in outdoor-rated fixtures, and totally enclosed fixtures.
- NON HAZARDOUS - LED light bulbs are recyclable and easier to dispose of because they do not contain any hazardous material. flickering-free, zero harsh glares prevent eye fatigue and provide a comfortable, stress-free atmosphere.
- Energy-efficient A19 LED bulb replaces a 100-watt incandescent light bulb and uses only 14 watts of energy, conserving up to 86%.
- Provides brightness of 1500 lumens and bright white light appearance (3000K).
- Turns on instantly to full brightness and lasts 15,000 avg. rated hours, years longer than an incandescent A19 bulb.
