Description

[Show Less](#)

Heat resistant nylon tube: Heat resistant to 450°F / 230°C.
 This turkey baster creates powerful suction to retrieve succulent juices from the pan, melted butter, a marinade, or other sauces you want drizzled over the meat. It is easy for you to squeeze the top and use the suction to absorb the juices as needed to pour over the turkey, ham, or other dishes.
 Require little pressure or strength to handle, Dishwasher-safe makes it convenient to deal with the aftermath of your delicious dinner.
 The length of turkey baster is 12.2inch, which is long enough to reach down deep into your roasting pans. Round, silicone bulb is comfortable to hold from any angle.
