## Warranty

Our systems feature a high torque motor and gearbox. Our operators use the highest quality hardware to deliver lifetime\* performance for your investment.

## Technology

The edge feature automatically limits the force at the automatic opener system will reach the edge of a moving gate. This inherently allows the opener to prevent entrapment of people and animals, it also allows for a reliable installation at your home.

Our systems include remote transmitters, keypads, and sensors to activate your gate system, ensuring it is safe and secure from hackers.

## Range up to 1,000 feet

Our systems have exceptional range and each can operate up to two different gates.

## Battery Operated

Our systems are battery operated and will require a 12 v deep cycle marine/auto battery or our ABBT2 Battery Box Kit. (not included).

## Solar Optimized

Our systems are solar optimized for areas where electricity is not an option for recharging your battery. Please see solar map and chart for how much solar power you need for your area.

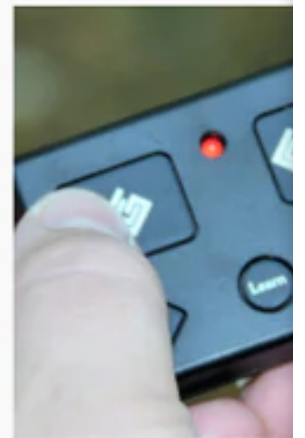

## Partymode Feature

Our popular Partymode feature is found on the AXP1 5-Button Premium Remote and the AXWK Wireless Keypad. This feature allows you to override your auto-close setting and keep the gate open for those times you want to keep your gate open for deliveries, lawn care or a family gathering.

## Tube Gate Brackets\*

Our AXTB Tube Gate Bracket Kit helps for an easier installation on tubular style gates. It can also aid in the installation of the AXZL ZombieLock. \*Tube gate brackets included in Heavy Duty Series Kits.

## Popular Questions

### **Wireless Keypad range (<https://ghostcontrols.answerbase.com/4253889/Wireless-Keypad-range>)**

Follow [\(/Widget/Follow/4253889\)](#)

We do not recommend installations further than 100' from the gate but you can give it a try. Rf range is very difficult to predict because of how many devices and things can create interference.

### **Will this operate a lift master solar gate opener (<https://ghostcontrols.answerbase.com/4321684/Will-this-operate-a-lift-master-solar-gate-opener>)**

Follow [\(/Widget/Follow/4321684\)](#)

To use Ghost Controls Wireless Accessories on a Lift Master or other manufacturer's unit you must purchase the [AXUR](https://ghostcontrols.com/products/axur) (<https://ghostcontrols.com/products/axur>) Universal receiver kit. The kit includes the Keypad and a single remote.

### **Can this keypad be operated through my cellphone? (<https://ghostcontrols.answerbase.com/4328540/Can-this-keypad-be-operated-through-my-cellphone>)**

Follow [\(/Widget/Follow/4328540\)](#)

No, Ghost Controls keypads do not have cellular compatibility.

[^ \(/Widget/VoteUp/4332112\)](#) | [v \(/Widget/VoteDown/4332112\)](#)

### **Can two keypads be used on one gate? One inside and one outside? (<https://ghostcontrols.answerbase.com/4304210/Can-two-keypads-be-used-on-one-gate-One-inside-and-one-outside>)**

Follow [\(/Widget/Follow/4304210\)](#)

Great question, yes, you can have one keypad for the entrance of the property and one keypad for guests to exit the property. A great feature on the keypad is 1Key. Put your keypad in this mode and your guest can press any number on the keypad and the gate was open and close behind them

[^ \(/Widget/VoteUp/4304367\)](#) | [v \(/Widget/VoteDown/4304367\)](#)  
**Do you have a cover for my new keypad? (https://ghostcontrols.answerbase.com/4248781/Do-you-have-a-cover-for-my-new-keypad)**

[Follow \(/Widget/Follow/4248781\)](#)

No additional cover is needed to protect the keypad. It is weather resistant out of the box
