Hazmat Trauma Clean Up

Biohazard and trauma cleanups unlike standard housing and businesses cleaning, biohazard clean up is a service that requires industry expertise and specialized equipment. Part of the service will handle biohazard hoarding vehicle remediation, decontamination in order to remove blood-borne pathogens also decontamination of first responders Equipment and Facilities police and fire.

Mission Statement

We, the team members of Action Emergency Management, are committed to putting the victims of disaster first above monetary gain. Our employees are trained extensively to work with the community in a time of grief to show compassion as well as effectively reaching a resolution to the crisis at hand. We are dedicated to getting the individual, family or community back to a successful, speedy recovery in a professional manner that is unmatched.

Emergency Board-Up

If you have been a victim of fire, explosion, water or wind damage, vandalism or any other disaster, you need to rely on professionals to deal with board-up and restoration. Action will secure your property and give you valuable advice. If the next step is cleanup, glass replacement, restoration service or demolition, Action will be your one stop company to getting your life back to normal with a minimal amount of hassle.

Temporary Fencing

Action knows how to work closely with our customers to effectively secure and protect any construction job site, special event, work area, disaster relief zone, or other restricted areas from public access.

Demolition

If your home or building is a complete loss, Action can safely demolish the building and remove the debris field. We provide complete demolition services and we carefully remove your building and grade your existing lot. Any hazardous materials will be dealt with appropriately. Action will also interface with utility companies, city officials, and local fire departments to ensure that all appropriate paperwork is completed in the proper manner.

Sometimes demolition of a property is more complicated than just knocking it down and disposing of the waste. Quite often a demo company becomes a partner in an ongoing investigation, or has to preserve part of a building or certain materials that were stored in that building. This takes a degree of finesse that not all demo companies possess. Action has the means and expertise to excel with forensic demolition and recovery.

Aerial & High Angle Division

Action Emergency Management has an Aerial and High Angle Division that we utilize our Tower Truck to reach up to 10 stories.
