Learn About Our Capabilities

WORK WITH US

AXIS Group Ventures is a boutique investment bank specialized in providing capital raise placement support and strategic advice for global venture capital-backed firms and founder-led technology companies.

01 AXIS has substantial industry knowledge and reputable transaction experiences.

02 We are committed to providing trustworthy advice and strategic value to all our clients.

03 We have a broad lender relationship network and numerous relationships with Venture Capital and Private Equity investors in the market

04 Our firm provides guidance and support in the negotiating, structuring, and closing of debt capital.

05

We help Companies navigate the debt market, debt providers, or particular debt structures for specific business needs.

06

We have prior bank and non-bank credit investing experience, and fully understand the diligence required to source, evaluate, and close financings.

Client Testimonials

Axis is the perfect solution for growing tech firms when you're looking for a new capital partner. They can run a full marketing process for you or hand-pick a few pre-screened firms that meet your objectives and with whom they have relationships. Tim knows all of the funds in the market well and can help you structure the best deal for your situation. Highly recommend working with them.
