

TITAN^{XT}

WHERE INNOVATION MEETS EXTREME TECHNOLOGY™

Titan XT[®] shingles feature some of the most advanced innovative technology in the industry. With powerful engineering, Titan XT shingles are designed to offer an advantage for both homeowners and contractors, combining in-demand product features into one Extreme Technology shingle designed to help weather extreme conditions.

ANCHORLOCK™ LAYER

This unique poly-fabric reinforces the shingle for an added layer of protection and provides an anchor for the nails to embed in, locking them tightly to the deck to help reduce blow-offs.

RAPID FIRE ZONE[®]

A clearly defined expanded nailing zone for fast and easy installation.

ULTRAMAX WEATHERING™ LAYER

Proprietary engineering to increase top coating where it's needed most, for a weathering layer of asphalt designed for protection.

POWER CORE™

Fiberglass mat core engineered to help resist tearing and cracking.

PROTECTIVE GRANULES

An embedded layer of ceramic-fused granules offering both beauty and protection.

APEX COLOR™ TECHNOLOGY

Proprietary granule blends and advanced color drops create superior color.

ADVANCED FUSION™ SEALANTS

A family of sealants, specifically designed to be sticky, even in cooler weather, forming quickly and holding fast.

OUR HIGHEST WIND PROTECTION EVER

The **WindGUARD™ WARRANTY** - up to 160 MPH with only 4 nails - the expanded nailing zone.

Introducing an industry first - a high-wind warranty with coverage up to 160 MPH, with only four nails installed in the expanded nailing zone, when using TAMCO Starter[®] inspired by the combined performance of our AnchorLock[™] layer and Advanced Fusion[™] sealants to help the shingle hold fast.

Titan XT shingles feature a reinforcing strip of polyester fabric on the back of the shingle to provide added anchoring for the expanded nailing zone.
