- **SIMPLE, FAST, EASY INSTALLATION:** The FQDGTFA K-522 Double Basin Topmount Sink with Strainer Drain Comes Ready to Install with all of the Must Have Accessories in One Package (you need silicone adhesive). Handmade from 304 stainless steel with a polished finish, this topmount sink makes the perfect prep workstation. There's no need to hire an expensive contractor or remodel your entire kitchen, grab your tools and DIY: Most people can complete assembly of this project in under a day.
- **CLEANING MADE EASY:** You can use a simple scouring or scrubbing sponge and liquid soap for everyday maintenance and minor stains. For a deeper clean, we

recommend using stainless steel wipes (they are usually black) to polish the sides. You can use appliance cleaner (sprayer bottle) and a gentle brush to spray and clean the grid or grate insert. As always, a good combo of old fashion upkeep and the proper cleaner will keep your sink looking new, polished, decorative, stylish and without grime.

- **SIZING INFORMATION:** Overall outside dimensions: 31.25"x20.5" with an extra large 7.5 inch wall depth, a 3.5" drain and round corners. Lose the apron: Hand wash all of your big kitchenware without having to guard yourself against the splash that's common with most small or narrow sinks. FQDGTFA sinks are unique, prolific, and easy to love. If you're not happy for any reason, reach out to us and we will make things right, zero questions asked.
