Advanced design: Power inverter with durable aluminum alloy shell, can withstand harsh environment and collision, intelligent cooling fan, no hot, no noise. High power conversion efficiency, AC equipment performance is strong.

Safety protection: inverter has over current, overload, over voltage, under voltage, high temperature, short circuit protection. Advanced high frequency transformer and 100% pure copper super flexible cable, very safe use, very low power conversion loss.

Wide application: You only need the power inverter battery connected by cable, you can use AC power anytime and anywhere. Suitable for use in power outages, emergencies, cars, homes, remote workplaces, etc.
