## Fairmined Gold Jewelry

Welcome to RIVA Precision's Fairmined Gold Fine Jewelry catalog. RIVA Precision is proud to be the only jewelry manufacturing company in North America that offers Fairmined Gold chains, and we have built a fine jewelry collection around those chains. Our collection features an exceptional selection of necklaces, pendant necklaces, bracelets, earrings, and even some rings, with styles that run the gamut from reimagined classics to bold statement-makers to vintage-inspired. Each piece carries the FAIRMINED stamp. More than just a worthy investment, the consumer can wear these pieces like badges of honor, declaring to the world that their items were sourced in socially and environmentally responsible manner.
