# Data Analysis Certified (DAC)

DAC Packages    DAC Tracks    DAC Rulebook    Exams

Data analysis is an integral part of nearly every job role is business today. Data is ever-present and strongly influences individual and organizational performance. The ability to confidently navigate the path from data to information, understanding, decision, and action is a key characteristic of top performers. Whatever your role may be—business or technical, management or functional staff—data analysis is a valuable and important skill set. You can be sure that the demand for data analysis skills will increase at a rapid pace through the coming years.

Data Analysis Certified
Catalog

Data Analysis Certified (DAC) is a professional designation that affirms your data analysis knowledge and skills. The DAC designation makes a clear statement that you have learned from leaders in the field and that you have demonstrated depth of understanding and ability to apply the concepts and techniques in one or more of three data analysis subject areas: business analysis, data analytics, and advanced analytics. The "data analysis certified" designation makes a strong statement when coupled with your specific job title. Imagine the power of the message when you present yourself as Data Analysis Certified Operations Manager, Data Analysis Certified Financial Controller, Data Analysis Certified Marketing Specialist, Data Analysis Certified Business Analyst, Data Analysis Certified Data Scientist, etc. As Data Analysis Certified, You will be met with new respect, engage in thought-provoking conversations, and find new opportunities for career growth.
