Description Reviews (1)

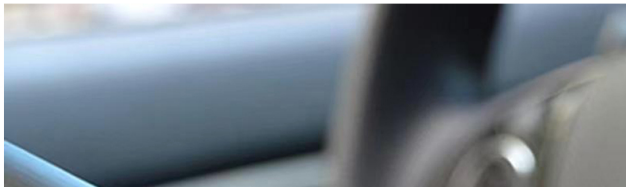

[High Quality]The body of the car lighter is made of high-quality metal, which is sturdy, durable, safe, and can be used for a long time.

[Multi Function] The pop-up lighter can not only serve as a cigarette lighter, but also as a dust plug to prevent dust from accumulating in the lighter socket and affecting its use.

[Easy to Use] To use this lighter, insert the button into the 12V lighter socket and press it. After 5 seconds, it will automatically pop up.

[Regular Size] The pop-up car lighter is suitable for a 12 volt lighter socket, which is the standard configuration for most American/Japanese cars.

[Widely Applicable] Lighter plugs are suitable for most vehicles: cars, trucks, SUVs, scooters, tractors, ships, yachts, etc.
