## Long Island's Deer Repellent Specialists®

Deer Guys® is a deer repellent spraying service that uses its own natural product to prevent deer damage. Our patented repellent was created by our founder, wildlife biologist Christopher J Markham, after years of research, experiments, and field tests.

We are Deer Repellent Specialists® with extensive knowledge of deer and their habits, and the only focus of our company is to protect your valuable landscape from deer damage. Our customer service and satisfaction rate since 2002 has allowed us to build an extensive, loyal client base and our reputation has helped us become a preferred service for many industry professionals in the landscape and nursery fields.

### Your happiness and a protected yard – guaranteed!

We guarantee you will be happy with the dramatic results of our product and service, however, if you are ever not satisfied and decide to discontinue our service, Deer Guys® will REFUND the price of your LAST application.

- 🌿 Protects Landscape
- 🌿 Virtually Transparent

## How We Service Your Property

When servicing your property, we blanket your entire landscaping with a fine mist of our product. In many instances, we try to cover the perimeter of the property as well, including all entry points and commonly used trails, to remind the deer that your property is “off-limits”.

We service properties on a strict spraying schedule and always recommend year-round coverage to ensure maximum protection. We also offer a seasonal schedule.
