SERVICES

FIRST PART SERVICES

First Part has been committed to the research and development of rapid modeling technology, we have a world-class technical team to provide each of our customers with quality one-stop service. Our service include: CNC machining, injection molding, die casting, surface finish, etc.

First Part turns your ideas into market-ready products with a super short turnaround time, which helps you quickly get your ideas off the ground. First Part is a leader of rapid prototyping in China. See what we can do for you! If you have a need to CNC service, injection molding service (<https://firstpart.com/plastic-injection-molding/>) or other, you can click the **quote** (<https://firstpart.com/contact-us/>) to contact us!
