

Mark: MOUNJARO MOUNJARO

Goods and Services: Class 44 - Medical information services in the field of diabetes

Serial Number: 97596856

Owner: Eli Lilly and Company

CHANGES TO DESCRIPTION OF THE MARK THROUGH THE AMENDMENT

(The green shows additions and the strike out shows deletions.)

The mark consists of motion incorporating sound. The motion component of the mark consists of: red and purple triangles with rounded edges rising and growing from a blank space as they cross each other - the purple triangle from right to left and the red triangle from left to right. Next, the red triangle moves in front of the purple triangle as the word element "MOUNJARO" appears from below and the triangles shrink, forming the letter "m" above the letter "j" in the word element "MOUNJARO." The sound element begins with the start of the motion element and carries through to the end of the motion, concluding in unison. The sound element consists of the piano notes high and low F played together, high and low G played together, ~~A and connected to another A~~ **and then a C note played in unison at the same octave C4**. In the background of the piano notes, digitally created strings play the sequence low C and low F, low D and G, **and long** low E and low F ~~connected to a long low E and low F~~, **C** and a digitally created Bass plays ~~D F, E G and A C~~ **F, E G and A C**. After the piano sequence ends, the notes of the strings and bass continue for a quarter note, which is overlaid with a glockenspiel and bell, the glockenspiel plays a high C eighth note ~~connected to a quarter note~~ while the bell plays a C eighth note ~~connected to a quarter note~~, with a digitally enhanced echo effect as the music and motion conclude.
