In re Trademark Application of)
SAMSUNG ELECTRONICS CO., LTD.)
Serial No. 88/889,283)
Filed: April 27, 2020)
For the Mark: GALAXY BUDSX)

PETITION TO AMEND BASIS AFTER PUBLICATION

Applicant, SAMSUNG ELECTRONICS CO., LTD., hereby amends the subject application by substituting Section 44(e) as a basis for registration, and retaining the Section 1(b) basis until the Section 44(e) basis is accepted. *See* TMEP § 806.03(j)(ii). Specifically, Applicant wishes to rely on Indian Registration No. 4492317 for the subject mark, issued on November 15, 2020 and having an expiration date of April 27, 2030, a copy of which is attached hereto.

Applicant submits that it has had a bona fide and effective industrial or commercial establishment in India as of the date of issuance of the foreign registration.

Provided the foreign registration is accepted, Applicant wishes to rely on Section 44(e) as the sole basis for the subject mark to proceed to registration. As such, the Section 1(b) intent-to-use filing basis should be deleted upon acceptance of the Section 44(e) basis.

Respectfully submitted,

By:
