

## LIQUID WAX CANDLES

Lumen Dec™ Candles provide the beauty of a wax candle without the wax cleanup. Manufactured in the United States, the refillable nylon shells are highly durable and have the look of traditional beeswax candles.

The fiberglass wick draws the liquid paraffin fuel from the reservoir up the flame. Each wick has an approximate burn time of 1,000 hours. When you are ready for a new wick, a new one will be provided free of charge when you use (#90001) CandlePure™ to fuel your Lumen Dec™ Candles. This fuel provides a clean, odorless and dripless flame.

Lumen Dec™ Candles are available in sizes to fit most existing candlesticks, making them easy to use. This economical candle system will provide hours of clean, odorless candlelight for your worship service!

Shown with YD030 Notre Dame Series candlesticks sold individually on page 195.
