

Power Leash

\$39.99

Uncompromising Reassurance

Six-foot leash with built-in traffic handle for extra control plus the convenience of a waste bag slot and utility ring. Composed of high tensile strength nylon webbing and high strength, aircraft grade snap hook that will withstand more than 1000 pounds of force for the medium and 1500 pounds of force for the large. Tensile tested at an aeronautical lab to verify strength. Intuitive, push-on snap hook design is beneficial for those with arthritis or hand mobility issues. Chromaweave high-density webbing and Sleepypod aircraft grade hardware.

Beauty in Strength

Vibrant colored yarn is individually dyed then woven together to craft the high-density webbing's unique luster and colorways. The beauty is in the strength, however. Custom textiles and hardware are individually then collectively strength tested to ensure a safer product. High-grade hardware and Chromaweave high-density webbing provide unmatched strength to weight ratio. Durable yet lightweight so it won't weigh your pet down. Robust stitching withstands daily use. Everyday is extraordinary.
