

## THE WORLD'S HIGHEST-RATED DATA CENTER CAMPUS ECOSYSTEMS

### TIER 5® PLATINUM COLOCATION

Switch's Tier 5® Platinum hyperscale data centers go beyond Tier IV Gold ratings and have become the new standard in design, construction and operations in the data center industry. These massive purpose-built colocation facilities provide clients access to the power of a diverse technology collaboration ecosystem and a dedicated team driven to help clients connect, innovate and develop technologies of the future, enabling our hyperscale data center systems at unparalleled low pricing.

### 100% GREEN POWER

Each data center is powered by 100% renewable energy and are equipped with patented tri-redundant power systems that can support up to 55 MW of power (per cabinet) at scale. Switch's access to local renewable energy sources allows the Switch PRIMES® to meet the hyperscale power needs of each campus location, and at highly competitive pricing.

### LOW OR NO TAXES

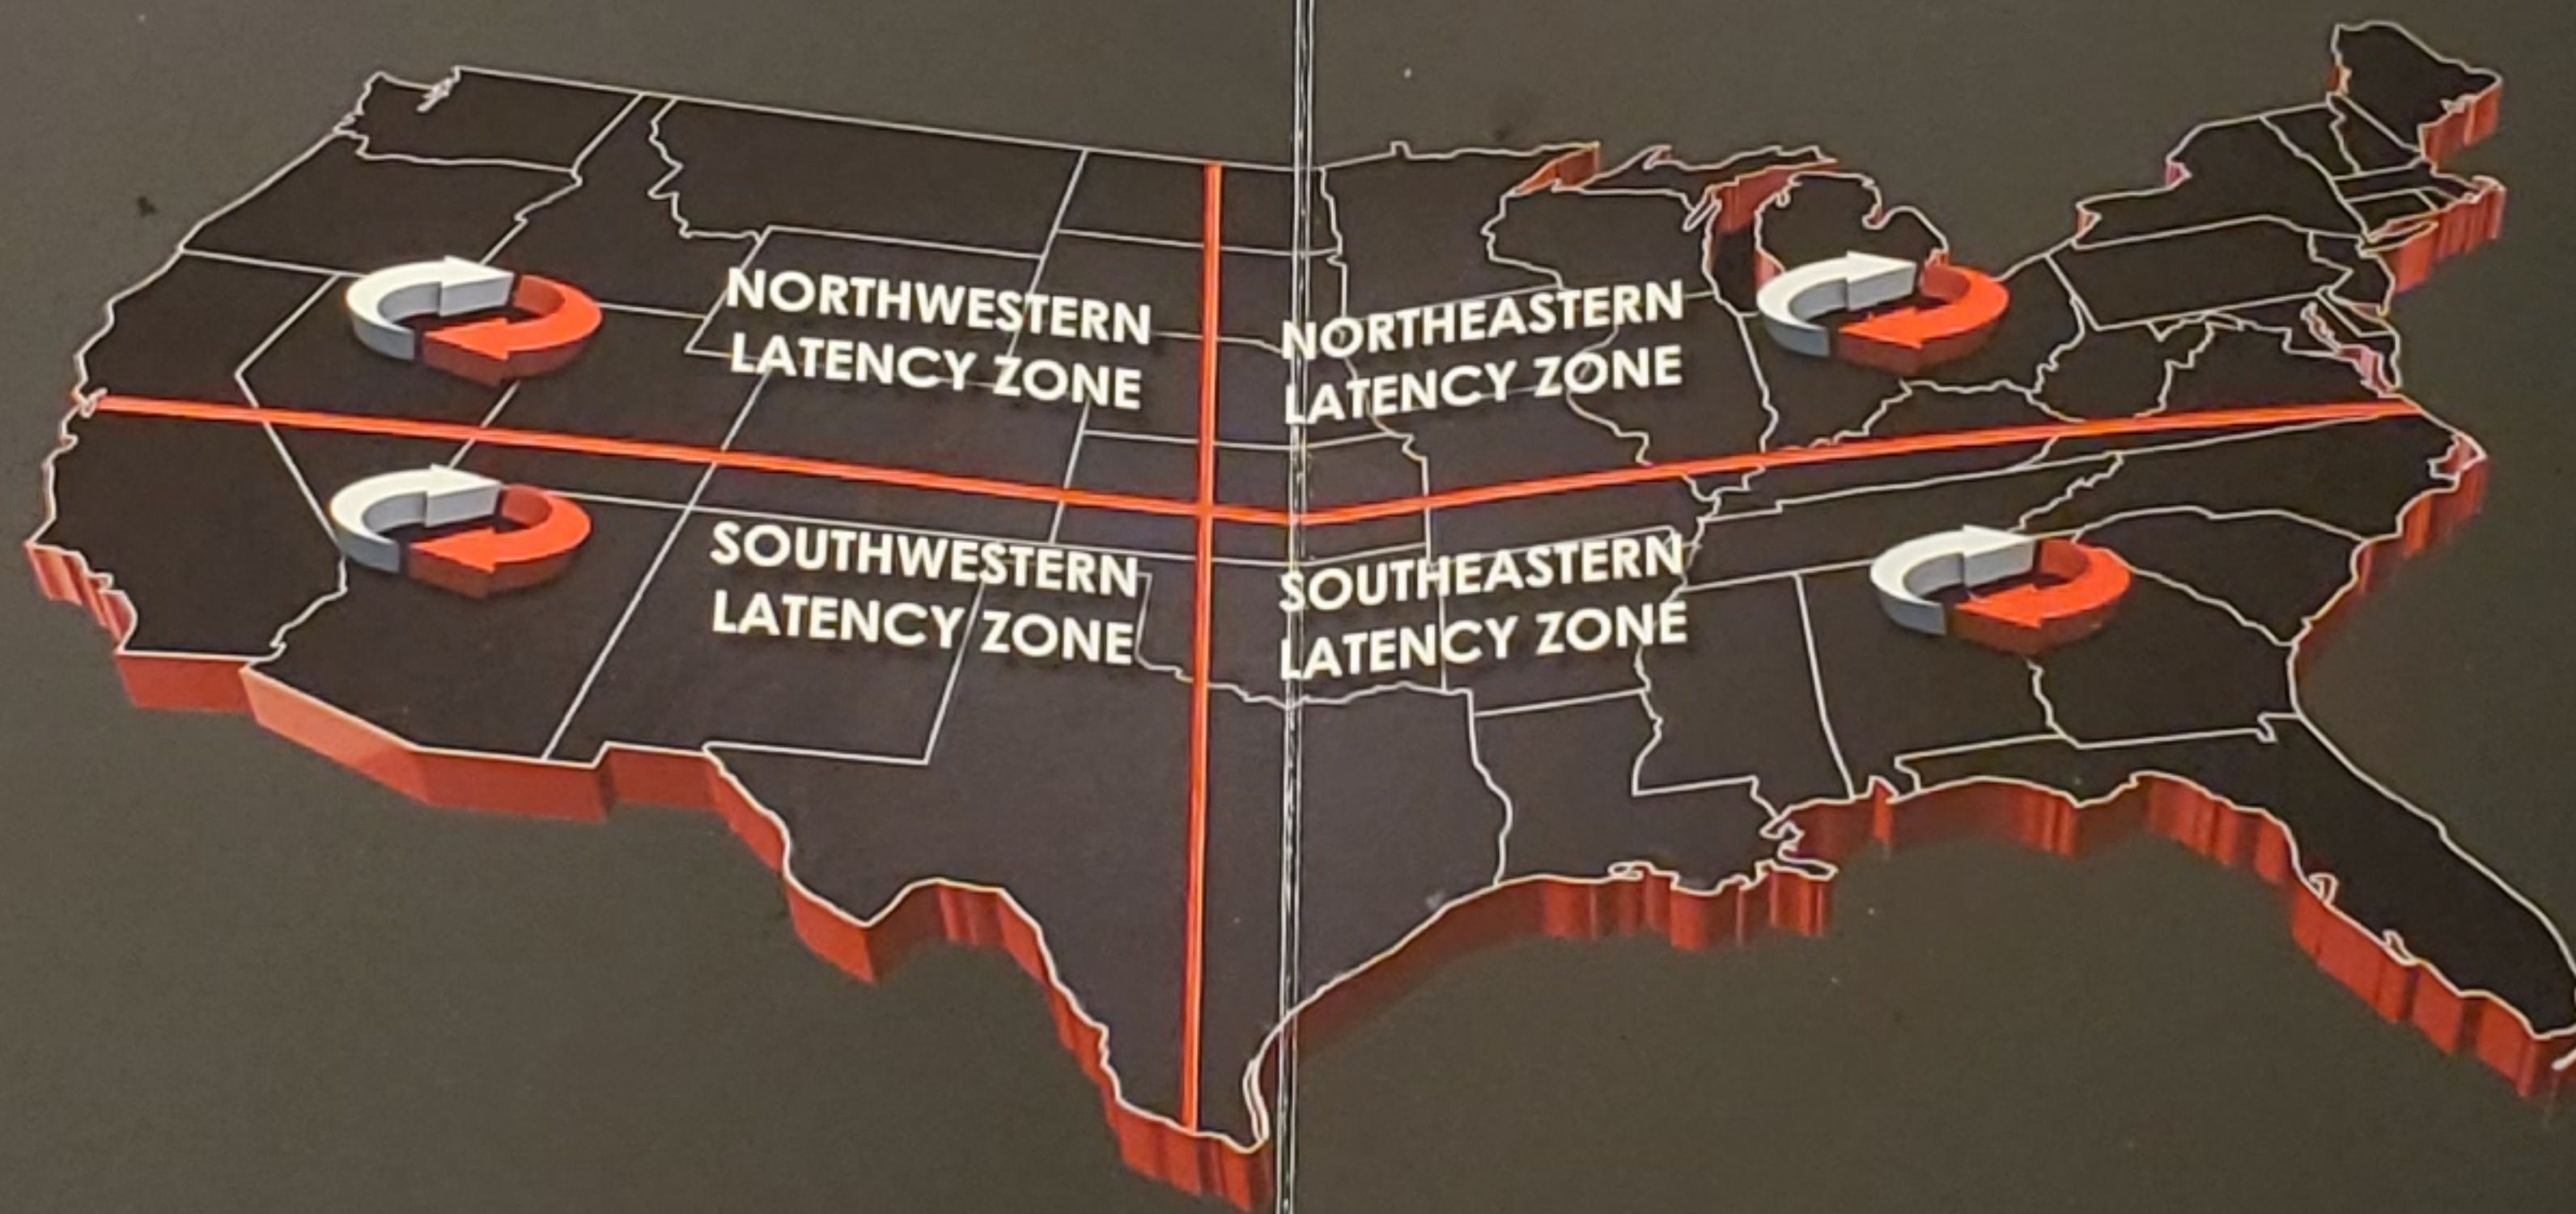

Each campus is located close to the major enterprise business markets, yet strategically positioned in low tax and high-cost of living areas. Switch collaborates with local governments in each primary latency zone to create tax advantages for clients, which translates to huge savings.

# THE FOUR SWITCH PRIMES

## NORTH AMERICA'S PRIMARY LATENCY ZONES

### WESTERN ZONES

- NORTH**  
The Citadel Campus
- SOUTH**  
The Core Campus

### EASTERN ZONES

- NORTH**  
The Pyramid Campus
- SOUTH**  
The Keep Campus

The Switch PRIMES® are the world's highest-rated hyperscale data center campus ecosystems with low latency to all major U.S. markets. Switch PRIMES® are located in the most cost-effective area of each North American zone based on power, connectivity, taxes, cost of living and lower risk of natural disasters.

## 35-60% SAVINGS ON CONNECTIVITY, GUARANTEED

### The Switch CORE Cooperative Combined Ordering Retail Ecosystem

The Switch CORE leverages 100's of clients, over 50 providers and trillions of dollars in combined market capitalization to offer Switch's clients purchasing power at massive scale. There is no ecosystem in the world that can match the ROI combination of the Switch PRIMES powered by the Switch CORE auditing and purchasing cooperative.

Switch CONNECT® is the world's most powerful telecom auditing and purchasing cooperative. On any given month, Switch CONNECT is negotiating the purchasing of thousands of telecom circuits for hundreds of clients all at the same time, enabling Switch clients to purchase telecom with hyperscale purchasing power. The Switch CONNECT team provides an independent forensic audit of your enterprise telecommunications needs and will deliver 35-60% savings, guaranteed.
