Electronic Signature

The form will not be "signed" in the sense of a traditional paper document. To verify the contents of the application, the signatory must enter any alpha/numeric character(s) or combination thereof of **his or her choosing**, preceded and followed by the forward slash (/) symbol. The USPTO does **not** determine or pre-approve what the entry should be, but simply presumes that this specific entry has been adopted to serve the function of the signature. Most signatories simply enter their names between the two forward slashes, although acceptable "signatures" could include /john doe/; /jd/; or /123-4567/.
