

# REED'S CROSSING

## Portland Market

On Portland Metro's west side, economic opportunities abound. Reed's Crossing puts you in the heart of the Silicon Forest, with leaders in technology and growing industries right at your doorstep.

Reed's Crossing seamlessly integrates the natural and built environments for the people who will one day call it home. The community's walking-friendly design brings people out of their homes, and a full calendar of events will bring them together. Neighbors quickly become friends, and friends become close friends just as fast.

The proposed mixed-use town center, the wide array of home designs built with environmental sustainability in mind, the future schools, and a robust and diverse network of trails and pathways make Reed's Crossing a fully integrated, sustainable lifestyle community for generations to come.

## ECLECTIC ARCHITECTURE. PERFECTLY BLENDED.

### CRAFTSMAN

Homes in this classic Portland architectural style will be available in a variety of sizes, from larger homes to bungalows. All sizes feature the gabled roofs, overhanging porches supported by heavy wood columns, and other charming details to delight the eye.

### PACIFIC NORTHWEST MODERN

Unpainted timbers, eye-catching asymmetry, and crisp geometry create an expressive fusion of function, tradition, and modernity. Often, large windows run in ribbons along portions of the home, and shiplap siding in natural hues emphasizes the dramatic tiers of horizontal lines.

### TOWNHOME

Thoughtfully designed townhomes will be available in different architectural styles. You'll be able to choose from sleek, modern designs, as well as traditional styles, complete with expressive windows and brick-clad facades.

### CONTEMPORARY FARMHOUSE

Few styles are as welcoming or as cozy. Steeply sloping peaked roofs and rows of windows along large expanses of wall draw you in past spacious porches to open floorplans with large common rooms and vaulted ceilings.
