

Hoisting Our Sail

RedSail Technologies, LLC, is the parent company of four premier brands – QS/1, Integra, PowerLine, and PUBLIQ Software – which span the healthcare and governmental market segments. We remain hoisted by the stability and the unique, strong relationships that have been synonymous with our brands for decades. We are committed to possessing a growth mindset where we continuously invest in our business, our employees, and our customers – who are foundational in the communities they serve.

Community Pharmacy

QS/1 is the premier pharmacy partner in the ever-changing and dynamic healthcare marketplace. With over 40 years of industry experience, our solutions help community, chain, hospital outpatient pharmacies, and HME businesses remain relevant, profitable, proficient, and successful through technology. QS/1 is the only software vendor with an integrated suite of products, including POS, IVR, document management, mobile refills, delivery apps, built-in prescription synchronization, and HME documentation. QS/1 serves customers through 24/7 customer support, nationwide hardware maintenance, regulatory updates, ongoing product development, and enhancements.

Claims Switch

Scalable, HIPAA-compliant pharmacy-data transaction services that give you a say in your customer experience and over your pharmacy's margins. For claims switching and data services you can trust, your ability to choose starts here.

PowerLine provides switch and data services for pharmacy management systems and other pharmacy service providers, supplying centralized links between pharmacies and their industry partners. The links enable vital transactions, such as adjudication of prescription claims, pre- and post-edits of claims, and direct messaging.

Public Sector

PUBLIQ Software provides solutions for those who serve the public. We offer property tax management software, billing software, and an integrated accounting suite. Our solutions help municipalities, counties, and utility districts accurately calculate, collect, and distribute money, print and mail statements, and effectively manage budgets. We believe you can best serve your community when your software works for you, and we are committed to your success and ensuring the trust of your customers.
