**Nice to feel I can smile again**

*Bernadette Baxter on Aug 20, 2019*

It works as stated and very pleased after my first week of using the product.

However, although extremely reasonable costs u don't get free shipping and u do get charged from customs.

This is happening more and more and China b next. I am not put off purchasing product but you can add £19.00 for set and I paid £12.50 for pen.

As it works u hv to think it's money well spent but I haven't tried UK ones.

I would recommend but check prices and if happy go ahead.

**Worth it**
