### Features

- Tumble polished billet look
- New lower housing casting for enhanced fuel flow
- Improved design for street/strip applications
- Distinctive "BLACK" logo
- Compatible with alcohol or methanol fuels
- Flows 140 GPH (free flow)
- Flows 120 GPH at 9 PSI
- Maximum pressure is 14 PSI
- 3/8" NPT inlet and outlet ports
- Fuel pressure regulator is required (Recommend Holley P/N 12-704 for gasoline & P/N 12-707 for alcohol)
- Motor draws only 4 Amps current
- 7 1/2 Amp fuse recommended

### Parts & Kits for 12-815-1

P/N	DESCRIPTION
12-813	Small & Big block Chrysler mechanical fuel pump mounting pad cover
12-814	Small & Big block Chevrolet mechanical fuel pump mounting pad cover

Technical Information  
[Fuel Pumps Technical Information](#)  
[Instructions for Part# 12-815-1](#)

- Provides constant fuel flow with no pulsation
- Has externally accessible pressure relief valve (max 14 PSI)
- Rotor/Vane pump design is more tolerant of contaminated fuels
- Weighs only 3 lbs
- Includes mounting bracket
- Repair kits are readily available
- Can be serviced from either pump end or brush cap end
- Use of safety shut-off switch, P/N 12-810, strongly recommended
- Not designed or recommended for use with fuel injection systems

**Application Specific Footnotes:** Year
