Baby Manicure Kit

Four perfectly miniature-sized manicure tools, all ultra-comfortable for parents to use yet customized specially for the safe and gentle care of sweet little fingers and toes.

Tips & Tricks

Remove dirt and germs by gently brushing tiny nails in warm, soapy water with our **Baby Nail Brush**. To Clip, lift leveraged handle of our **Baby Nail Clipper** up and turn. Place the baby's nail in the opening (making sure the fleshy finger ends are not near the blades). Press handle down gently. Delicately trim sharp nail edges with our **Baby Nail Scissors**, featuring rounded tips for safety. (For use on infants over two months in age). Lightly file nail-ends with our **Baby Nail File**, smoothing each edge to prevent nails from catching clothing or scratching baby's delicate skin.
