

# Miracle™

**Dramatically enhance visibility and reduce your need for car washes! Protect your finish and restore the original luster. Benefits: Hinder fog condensation; Low-adhesion against ice, snow, sleet, dirt, dust, exhaust particulates, insects, sap, road residue and fingerprints; Provide superior resistance against weathering, salts, acids, and chemicals.**

Preparation: This product dissolves lacquers, one component paints and finishes! **DO NOT APPLY BEFORE TESTS** for paints, leather, and plastics!

1) Work in a shaded and cool area. Do not apply when surfaces are hot to touch; 2) Thoroughly remove contaminants, oil, grease, and wax from surfaces; 3) DETERGENTS **MUST BE THOROUGHLY CLEAN OFF**; 4) Dry surface with soft, lint-free cloth.

Application: 1) Shake bottle vigorously before use. 2) Pour a small amount of product to the clean surface and polish using circular overlapping strokes with a clean, lint-free cloth. 3) Wait for a haze to appear. 4) View treated areas at different angles and polish to remove haze spots. 5) Product can also be applied to the interior of windows to prevent fog condensation. Maintenance: **DO NOT USE DETERGENT OR SOAP.** Dust and debris can be easily removed using dusters. For difficult spots using water with sponges or soft cloths. For general cleaning, use only water.

Detergents will hinder the effectiveness of the coating until completely washed off. Compatible with windshield solutions that do not contain surfactants.

Life-span: Internal surfaces 1-2 years, external surfaces 6 months or longer. Caution: Avoid contact with eyes. Harmful if Swallowed.

Wash hands after application.

FIRST AID: Eye Contact: Flush with plenty water for 15 minutes. Call physician if eye irritation persists.

Ingestion: Drink two glasses of water. Do not induce vomiting. Call physician or poison control center immediately.

Skin Irritation: Wash with water and soap.

**Ingredients:** Water, fluorinated silicone, propylene glycol ether, acetone and emulsifier
