

DuPont™ ForeverLawn®

Select Synthetic Grass

Natural appearance for a pristine landscape

Remarkable natural grass appearance

A waterless, low-maintenance option to live grass

Great for areas where natural grass is difficult to grow or maintain

Improved resiliency and performance

Designed for long-lasting installations in any climate

DuPont™ ForeverLawn® Select Synthetic Grass has taken realism to a new level. This innovative line of fine-bladed, lush synthetic grass features a tan thatch, multi-colored blades, and a newly-developed Memory Fiber™ blade that offers an unsurpassed natural appearance. Ideal for residential and commercial landscaping, DuPont™ ForeverLawn® Select Synthetic Grass offers resilient blades and dense construction. Built on the ForeverLawn proprietary platform, this beautiful, low-luster grass product is great for replicating a natural grass look and feel in any environment.
