Amazon Integrator

Credit Card Integrator

PayPal Integrator

Home

Amazon Integrator - Manages your merchandise on Amazon with automatic stock level inquiry, pricing service and order processing while notifying customers with shipment confirmations and settling your A/R.

- **Amazon Integrator Executive Summary (pdf)** [300 kb]
- **Amazon Integrator User Manual (pdf)** [540 kb]
- **Purchase Service Manual**

Amazon Integrator - Seamlessly integrate your data into the Amazon store, and Amazon order data back into Venture, or other merchant system. Controls listing items, prices and available inventory on Amazon using the Amazon integration services.

amazon.com

Venture also processes incoming orders, sends Amazon order confirmation and shipment notices (which are then relayed to the customer using Amazon's presentation), automatically collects and applies cash to outstanding AR balances for Amazon customers and also handles refunds in the same manner.

- Merchant maintenance
- Product Setup and Maintenance
- Order Management
- Amazon order number & ASIN cross referencing
- Adjustments and Settlements
- Fully automated
