You're probably asking yourself what the "red zone" has to do with golf. We've simply borrowed a term from football and applied it to that space on the golf course - 100 yards from the green and in - where, just like in football, you can make the biggest impact on your score. We believe we've created a program that golf has never seen, one that combines motivation to improve your short game with easy-to-follow

#### Golf's Red Zone Challenge

By [B. A. Candela](#) on September 23, 2005

Format: Paperback

I am a low handicap player and thought this was the best scoring book I have ever read!! chipped in five times in the first two weeks after reading the book. The eleven ball drill is incredible.If you need work from 100 yards and in, this is a must read. If you don't need the work from 100 in...have fun on the PGA Tour this year.

Format: Paperback

I've read over 30 golf books. This is by far the best. It's about the short game, but the pitching drills have improved my full swing dramatically.

## The "Red Zone" Short Game™ School

Charlie King, female golfer      Golfers who've gone through our program have improved as much as 200%! We know because we do our Red Zone short game skills test at the beginning of our school and test one or two areas at the end. The school's focus is on the scoring shots from 100 yards and in. The instructional emphasis is on the fundamentals and strategy of putting, chipping, pitching, distance wedges, sand shots and specialty shots.

You will learn how to switch from mechanics to feel, utilizing peak performance programming.

Each student is tested and videotaped in all areas of the short game to determine their strengths and weaknesses. A personal program is then developed.

Our revolutionary short game systems will simplify your short game, eliminating the guesswork, teaching you how to get it up and down. We will give you a more systematic approach to the short game. Our wedge system will teach you an array of shots and how to accurately control your distances. Charlie King golf lesson

Our chipping concepts make this into a simple, repeatable shot. Our goal at the short game school is to equip you with the methodology of shot and club selection and shot performance in order to maximize your effectiveness around the green.

Stability of the body is key to improved golf swing

Most people take for granted that if your feet are planted, your arms can swing fast and through the ball. But a golf swing is no different than a baseball player's swing or a place kicker's kick: You need stability of body and resistance.
