RESPONSE TO OFFICE ACTION

TEAS
Commissioner for Trademarks
P.O. Box 1451
Alexandria, VA 22313-1451

Dear Sir:

Applicant hereby response to the Office Action mailed on February 11, 2016 in the above-noted U.S. trademark application as follows:

Explanation of Mark's Significance

Applicant states that the letters "XO" do not have any significance in the bioprocessing trade or industry and these letters do not represent a "term of art" within Applicant's industry.

Identification of the Goods

In the Office Action, the identification of the goods was deemed indefinite and must be clarified because it does not put consumers on notice as to the precise nature of Applicant's goods. There is no common commercial or generic name for Applicant's goods and Applicant believes that the description of the goods as-filed describes the both the

products and end user as well as the main purpose or intended uses. Nonetheless, Applicant has proposed to amend the identification of the goods as shown below. Note that this amended identification is somewhat different from what was proposed in the Office Action (e.g., Applicant's goods are not scientific apparatus).

Amendment

Apparatus and instruments, namely Fluid fluid handling devices used for sterile bioprocessing applications and parts and fittings therefor including conduits, valves, and jackets and parts therefor.

Applicant requests reconsideration in light of the amendments made to the identification of the goods and remarks made herein. If the Examiner has any questions or comments regarding this amendment, the Examiner is respectfully requested to contact the undersigned at (925) 299-2922.

Respectfully submitted,

VISTA IP LAW GROUP LLP
