CoolGEL Memory Foam Contour Back Sleeper Pillow

(1 customer review)

This pillow is soft and nicely supportive, made from the same memory foam that is available in all of our mattresses. The low profile of this pillow is designed to support the natural curve on the back of your neck & perfect for back & stomach sleepers. (If you are a side sleeper, see our **Gel Memory Foam Side Sleeper Pillow**.) The dimensions of the contour at each end are designed to accommodate virtually any sleeper. The infusion of gel memory foam into the pillow means this pillow can sleep cooler for an even more comfortable rest. This pillow is also made entirely in America and features our CoolMax cover for a cool nights' rest.

ChiroSlumber Bedding is Made in the USA

ChiroSlumber bedding is made in the USA using non-toxic, skin friendly, hypoallergenic materials. Our mattresses have been certified clean by two independent labs.

Why is this important?

As more and more consumers become aware of the benefits of memory foam mattresses, companies have jumped on the bandwagon producing cheap, inferior products which can be dangerous to your health. Many memory foam mattresses are manufactured in China in questionable environments and have been found to contain chemicals which have been banned from use in the U.S. Our bedding is made fresh to order with **NO HARMFUL** fire retardant chemicals added to our memory foam or our covers. The core of our mattresses contains FDA approved safe materials which are designed to meet all fire safety codes. Our mattresses feature the most technologically advanced pressure-relieving memory foam in the world. Created from years of testing and studies by the world's leading chemical company, BASF. They are manufactured in North Carolina, packaged in Tennessee, and made entirely in the U.S.A.
