MATERIALS INCLUDED:

Create your own unique artwork!
Simple Step-by-Step Instructions
Never have the same outcome!
If you can hold a Crayon, you can do this!
* See reverse for Detailed Instructions.

BY THE ART NANNY™
LIGHTHOUSE COLORSHIELD

INSTRUCTIONS: Read all before start!

1. Place the StripShields around the border of your paper, make sure they are flat.
2. Place Lighthouse ColorShield on your page.
3. Using the Black Crayon, make small round & oval shapes under the lighthouse to create rocks.
4. Paint the rocks in shades of black.
5. Draw Clouds in the sky with the White Crayon, you will not see them just yet!
6. Using water to bring your paint jar to life, paint the Bottom half page as desired to make water. You can paint over the decals and the Crayon, do not worry! Next, Paint the Sky!
7. Paint the inside of the Lighthouse rectangle, this will be your lighthouse door.
8. Give the paint a moment to DRY!
9. Once DRY, carefully remove the Lighthouse ColorShield.
10. Using Crayons, add details to your Lighthouse, windows, outline the light, create a walk-about, divide the sections etc.
11. Using Paint, add color to the Lighthouse as you desire, paint right over the crayon!
12. Carefully remove the boarder StripShields.
13. Don't forget to sign and date your work!
14. Turn fame to back and open. Take the frame apart to assemble the glass in front of your artwork. Hang it proudly!

It's **UP TO YOU** to **BE THE ARTIST**, add detail as you desire!
Maybe flowers are multicolor, some leaves, water in the vase, perhaps a bumblebee!
