 Crayons  
 Complete Frame with glass ready to hang  
**ADDITIONAL ART MEDIA NEEDED:**  
 Water container & Water to clean brush

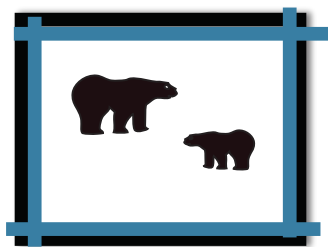

**POLAR BEAR COLORSHIELD KIT**  
 BY THE ART NANNY™  
 Create your own unique artwork!  
 Simple Step-by-Step Instructions  
 Never have the same outcome!  
 If you can hold a Crayon, you can do this!  
 \* See reverse for Detailed Instructions.

**INSTRUCTIONS:** Read all before start!

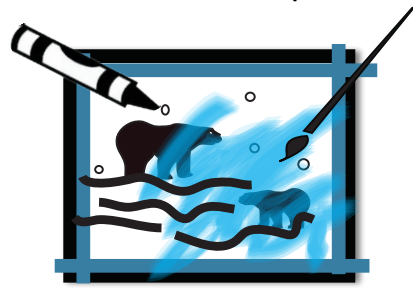

1. Place the StripShields around the border of your paper, make sure they are flat.
2. Place the Bear ColorShield on the paper.
3. Using the WHITE crayon, design snow and the ground (or color a forest background for a Brown Bear)
4. Color in the eyes of the bear w/a black crayon.
5. Add any additional details with the Crayons.
6. Using water to bring your paint media to life, paint your sky as desired. You can paint over the decals, do not worry!
7. Paint your ground as desired. Use wavy lines to make the snow have depth (or add short green strokes for grass!)
8. Give the paint a moment to DRY.
9. Once DRY, carefully remove the Bear Colorshields, paint the space with a touch of brown for Polar Bear, or give brown fur for a Brown Bear.
10. Add any remaining details as you like!
11. Carefully remove the boarder StripShields.
12. Don't forget to sign and date your work!
13. Turn fame to back and open. Take the frame apart to assemble the glass in front of your artwork.
14. Hang your work proudly!

IT IS UP TO YOU TO BE THE ARTIST, ADD DETAIL AS YOU DESIRE!  
 Maybe design a Panda Bear, or make a lush forest in the background! Its up to you!
