How it works:

Select items

Enter ISBN / Barcode, get trade-in prices and sell your items instantly.

Ship for free

Print out pre-paid postage label and post your items.

Get your money

After receiving your package the money will be transferred to you. Fast and secure!

Frequently asked questions

What is Momox?

Do you want to sell used books, get rid of old CDs & DVDs or sell games? Then you've come to the right place.

How do I sell books online with Momox?

If you want to sell books on Momox, simply enter the barcode number or the ISBN of the book you wish to sell. These can usually be found on the reverse side of the books or jackets or on one of the first pages. You'll immediately find out how much you will get for selling your books. If you would like to sell more books, repeat the process until your book trade-in is complete. Now all you need to do is go to the check-out or, if you want, sell other items, like games.

How is the book trade-in process completed?

Once you have completed the book trade-in online, all you have to do is print out the delivery note, bundle all items together with the delivery note into a package, affix the address sticker to the package and then either bring it to the post office or wait for the postal service to come collect it. The money will be in your account just a few days later!

How do I sell CDs?

Selling CDs works the same way as selling books. If you want to sell CDs, look for the barcode number on the reverse side of the CD case or in the booklet. Enter the numbers to find out how much you will get for selling your CD. Once you have completed the CD trade-in, everything works exactly like the book trade-in.

How do I sell DVDs?

Selling DVDs is just as easy as selling books or selling CDs. As with CDs, you'll usually find the barcode number of DVDs on the reverse side of the case or in the booklet. What's more, when you trade in films, not only can you sell DVDs, you can also sell Blu-rays.

And how do I sell games?

Regardless of whether you wish to sell your old Wii, Xbox, Gameboy or PlayStation games or use the games trade-in option to sell PC games, Momox guarantees attractive fixed purchases and safe processing for your games trade-in. The barcode number can usually be found on the reverse side of the packaging. Everything else works just like when trading in books, CDs or DVDs!
