Shipping included in price! - Contiguous 48 US states only. Pop off the sides of the shipping crate, cut the straps and it's ready to drive off the pallet!

This is a great scooter for both fun and transportation. You'll turn heads with the coolest scooter in town!

The EW-36 mobility scooter from eWheels is a 3-wheel, high-power mobility scooter that uses a transaxle brushless electric motor. This model features a variable speed dial for travel as slowly as 1 mph up to 18 mph, making it one of the fastest mobility scooters on the market - great for outdoor and indoor use. The EW-36 now has optional electromagnetic brakes giving the rider extra safety. A mode switch on the EW-36 allows you to switch back and forth between indoor and outdoor mode, with indoor mode having a much lower maximum speed. NEW! 2016 models come with an adjustable headrest

The Fastest Scooter In The USA! Grab A Bargain Today & Save \$1700! FREE Shipping.

"This Scooter Really is Something Else! Progress You Rock." Charles Kenwyn (Kansa City)

"I Never Knew that a Mobility Scooter Could be so Great. The EW-36 is Just So Fun!" Christine Adams (Fresno)

EWheels EW-36 Features:

- Fastest mobility scooters in the world today
- Ships pre-assembled, unlike most scooters
- Fastest electric mobility scooter in production!
- Super-long range allows for greater mobility
- Digital anti-theft alarm system with key fob remote
- Dual shock absorbers ensure a smooth, comfortable ride
- Extra large tires navigate uneven terrain with ease
- Maintenance-free sealed lead acid battery
- Twist throttle system is easy to operate
- Seatbelt, anti-tippers, bumper and rear-view mirrors for safety
- Front and rear electronic braking system
- Headlights and tail lights for nighttime driving
- A cost effective and emissions free high powered mobility solution
- Comfortably goes up a 20 degree incline

The EW-36 mobility scooter is a fast mobility scooter with great looks and luxury features! Includes a reverse gear and a deluxe seat with folding armrests and adjustable back. Speed up to 15 mph. Other standard features include a full lighting system (headlight, tail light, brake light, turn signals), side mirrors, speedometer, front & rear braking system, rear basket, locking glove compartment, locking storage under seat, and an anti-theft alarm system which sounds a loud warning and also locks the drive wheels. The EW-36 has 3 large diameter alloy wheels and comes equipped with shock absorbers on all three wheels. It uses a one-piece combined brushless electric motor, rear axle and differential unit like that of the most expensive mobility scooters for nearly zero maintenance. The electric brake assistant system, with parking brake and reverse switch provides the safety standards that you can rely on. The EW-36 is a great scooter for both fun and reliable transportation.

This electric mobility scooter provides the FREEDOM TO MOVE! At 15 mph, it's enormously faster than any motorized chair or any regular mobility scooter (which are limited to 3 or 4 mph), and beats waiting for a cab, a bus, a friend or a family member to provide transportation. It's super quiet, fun to ride, and essentially

maintenance free. It's also super economical since it costs less than 1¢ per mile in electricity to drive it. With up to 45 miles per charge, you can go where you want, when you want!

The EW-36 is classified as a power chair or mobility scooter and is legal everywhere including Canada

The EW-36 is fully assembled, inspected and tested before it is shipped to you! Then, it is securely strapped in the upright position to a wooden pallet and bubble-wrapped. Finally, it is crated in a secure wooden box and shipped to you so that it arrives at your home or business in perfect condition and ready to ride!

A dash-mounted speed-control knob is standard on the EW-36. As normal, you adjust the power to the motor with the twist throttle on the right hand grip of the handlebars - just like on any scooter or motorcycle. But, the speed control knob can be used to limit your top speed.

UPDATE: WITH THE 2014 MODEL, THE SPEED CONTROL KNOB IS ADJUSTABLE FROM A TOP SPEED OF 15 MPH DOWN TO A TOP SPEED OF 1 MPH. It can now be set to go 'extremely slow' to allow precise control in tight quarters such as a grocery store. Or, when traveling from your home to the local store, you can turn the knob all the way up to 'quick speed' and twist the throttle to accelerate to 15 mph in just a few seconds! So, you have the best of both worlds: fine control of your movement when you need to move precisely and slowly in tight quarters, and everything in between up to very rapid acceleration and higher speeds when you need it. You will never again be held back by an underpowered system!

We have many high quality ACCESSORIES for the EW-36 including a weatherproof cover, vented canopy, cargo trailer, premium cup holder, folding safety flag, cane holder, large tiller bag, large or extra-large armrest saddlebags, windshield, heavy duty carrier (vehicle tow hitch with tongue weight rated at 350 lbs or greater required), extra tires, tubes, battery charger, and more! Click on the "Related Parts and Accessories" tab above (the right of 'Description') to see them. You can add them to your cart from that page.

Highlights

- no license required
- 500 watt brushless rear-axle motor
- 48 volts (four 12 volt 20 amp batteries!)
- Up to 45 mile range†
- forward & reverse switch
- large wheels
- shocks on all 3 wheels
- 325 lb carrying (weight) capacity
- instrumentation including speedometer and battery charge indicator
- full lighting system - headlight with high/low beam, tail & brake lights, turn signals

- seat belt
- key start
- anti-theft alarm system
- cargo basket
- locking glove box
- locking storage under seat
- smart charger included
- lifetime technical support

† depends on rider weight and terrain

vroom vroom

had to wait a few extra days, but it appears to be worth it. i just started & drove it around the parking lot. very peppy, and very snazzy looking. but they omitted the promised cover. hope they send it asap. sure i'll have more to say after i've used it for a while. meanwhile, great vehicle.

A real beauty

Very happy with my purchase. I can scoot around town with heads turning. Has everything you need to be safe on the road and meets my needs perfectly! would surely recommend this beautiful scooter. Mine is purple.
