

Cast a wider net with our powerful public records search

Leverage one of the largest databases of public and proprietary information available on the market today. LexisNexis® Public Records features over 65 billion public records from over 10,000 diverse sources, comprising public, private, regulated, emerging and derived data.

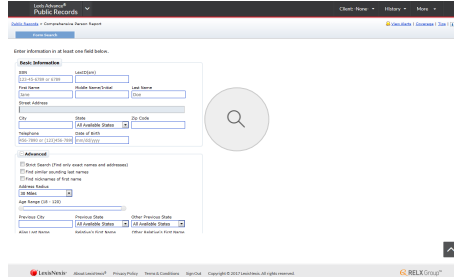

Draw from our vast array of standard and non-traditional sources:

- 735.4 million unique identities
- 736 million unique email addresses
- 3 billion business records
- 798.7 million phone numbers not currently located in directory assistance
- 10.4 billion records with date of birth
- 355.9 million unique phone numbers
- 5.9 billion personal property data records

Identify relatives, associates and neighbors who may show up in photos or be mentioned in social media postings with a search of hundreds of networks and millions of sites on the open web.

Find cell phone data critical to serving a subpoena such as associated addresses, carriers and an exclusive phone detail report with custodial contact information for the carrier.

Reconstruct a person's job history with Employment Locator, which provides places of employment as well as contact information for employers.

Due to the nature of the origin of public record information, the public records and commercially available data sources used in reports may contain errors. Source data is sometimes reported or entered inaccurately, processed poorly or incorrectly, and is generally not free from defect. This product or service aggregates and reports data, as provided by the public records and commercially available data sources, and is not the source of the data, nor is it a comprehensive compilation of the data. Before relying on any data, it should be independently verified.
