SYNOPSIS

Roger & Out is a free-to-play browser-based strategy RPG game developed by Travian Games. With its humorous approach and various references to famous films and TV series, this progress-bar game is a Sci-Fi parody providing an accessible and very entertaining gaming experience. Become a space conqueror, create your own unique sci-fi heroes and customize them with all kinds of different items. Join guilds to play against other alliances for ascendancy.

STORY BACKGROUND

Space - the final frontier. These are the adventures of a young mercenary who battles the forces of darkness in a galaxy far, far away or with the forces of light, alone or with other mercenaries – in their own guild starship!

Roger & Out are two robots. Besides leading new players through the game's slick tutorial, they have one single mission: to battle boredom and exercise your laughing muscles. Things really get going as soon as the newbies are unleashed into the galaxy...

MAIN FEATURES

- Progress-bar style
- Funny and often sarcastic backdrop mocking every green-eared, blue-skinned, black-helmeted cliché in the science fiction genre.
- A sophisticated game concept offering a similar variety of options as a boxed title.
- Intuitive controls
- Colourful and lovingly-detailed, comic-style graphics
- Browser-based and free-to-play

GENERAL GAMEPLAY

In Roger & Out, players will create and develop a no-name mercenary into a galactic superhero. They accept different quests, duel with NPCs or other players, collect valuable booty and experience points allowing their hero to level up and increase characteristics such as logic or empathy. Players are drawn ever deeper into the game, unlocking more areas of the galaxy as they increase in level.

EQUIPMENT CUSTOMISATION

The upgrade and collection options in Roger & Out are quite unlimited. Powerful pieces of equipment consist of several components that affect the properties of the equipment. Item names indicate the nature of the player's equipment ranging from an "Anarchist's Shabby Waistcoat" and a "Low-energy Zapgun" to the "Fantastic Rebel Jacket of Ultimate Defence" and the mighty "UberGun".

GUILDS

The game also allows players to found guilds and explore

manning every position with the ideal character. Every time the guild levels up, the ship can be expanded, unlocking even more missions that can be played cooperatively with the crew, providing even more bonuses for all guild members.

SYSTEM REQUIREMENTS

Internet connection
