BLUE MAKES GREEN

PURAGLOBE is the key player in the sustainable oil business: Our products help to massively reduce the CO2-footprint of our clients and to enable cleaner mobility all over the world.

We operate the most advanced sustainable base oil facilities in

Germany and the US, based on the exclusive use of UOP HyLube™ and HyLubeSAT™ technology.

We upgrade base oils to the highest possible standards, we re-engineer used oils and heavy fuels to get sustainable

OUR CLIMATE. OUR PASSION.

Sustainability drives us. It's why our sustainable base oils, solvents, and finished lubricants offer uncompromising efficiency and performance—and enable cleaner mobility.

PURAGLOBE provides base oils and solvent technologies ready for use in lubricants, fuels, polymers, coatings, and other products.

PURAGLOBE is the exclusive licensee of UOP HyLube™ & HyLubeSAT™ process technology.
