

## **Remarks**

Applicant has revised the services to address the various objections. In Class 38, Applicant has not amended the following description:

“providing multiple user access to information, data, communications, content, goods and services via a computer network and wireless communication apparatus.”

This recitation has been accepted in Applicant’s published application 79228197 for YOU TO THE POWER OF IBM. A Class 38 Examiner Amendment from that application that includes this wording as part of an acceptable recitation is enclosed. Applicant then submits that this recitation should be accepted as-is because it is acceptably definite and this would maintain consistency.

These companies often use names that closely resemble the USPTO and their solicitations may look like an official government document. Many solicitations require that you pay "fees."

Please carefully review all correspondence you receive regarding this application to make sure that you are responding to an official document from the USPTO rather than a private company solicitation.
