### AccuFill The Complete Wireless A/C Recharge System

## Complete **WIRELESS** System

AccuFill is the most advanced A/C recharge system that allows instant, wireless reading of your A/C's output temperature using RFID technology.

#### Wireless Digital Monitor

Conveniently read vent output temperature without leaving engine bay.

**WIRELESS VENT CLIP**

### EZ FREEZE R-134A+

Premium refrigerant with lubricant and performance boosters in a reusable can.

## Why ACCUFILL?

AccuFill measures what matters **THE TEMPERATURE**

**NO MORE** running back and forth. Check the air coming out of the system while you're charging it.

Save **MONEY** on a system recharge. Easy to do yourself, plus saves the time of dealing with a mechanic or services department.
